

Vanagon

Vanagon GL.
The versatile
crowd-pleaser.

After more than 40 years — and countless imitators — Volkswagen is still setting the standard for quality and versatility in compact vans.

Vanagon GL combines the road manners and handling of a city-slick sedan with cargo space and solid body

construction that is almost truck-like. Its cavernous interior (the largest in its class) makes short work of most cargo or passenger loads, and even when loaded, it zips about congested city streets with ease. And Vanagon GL is a real crowd-pleaser too,

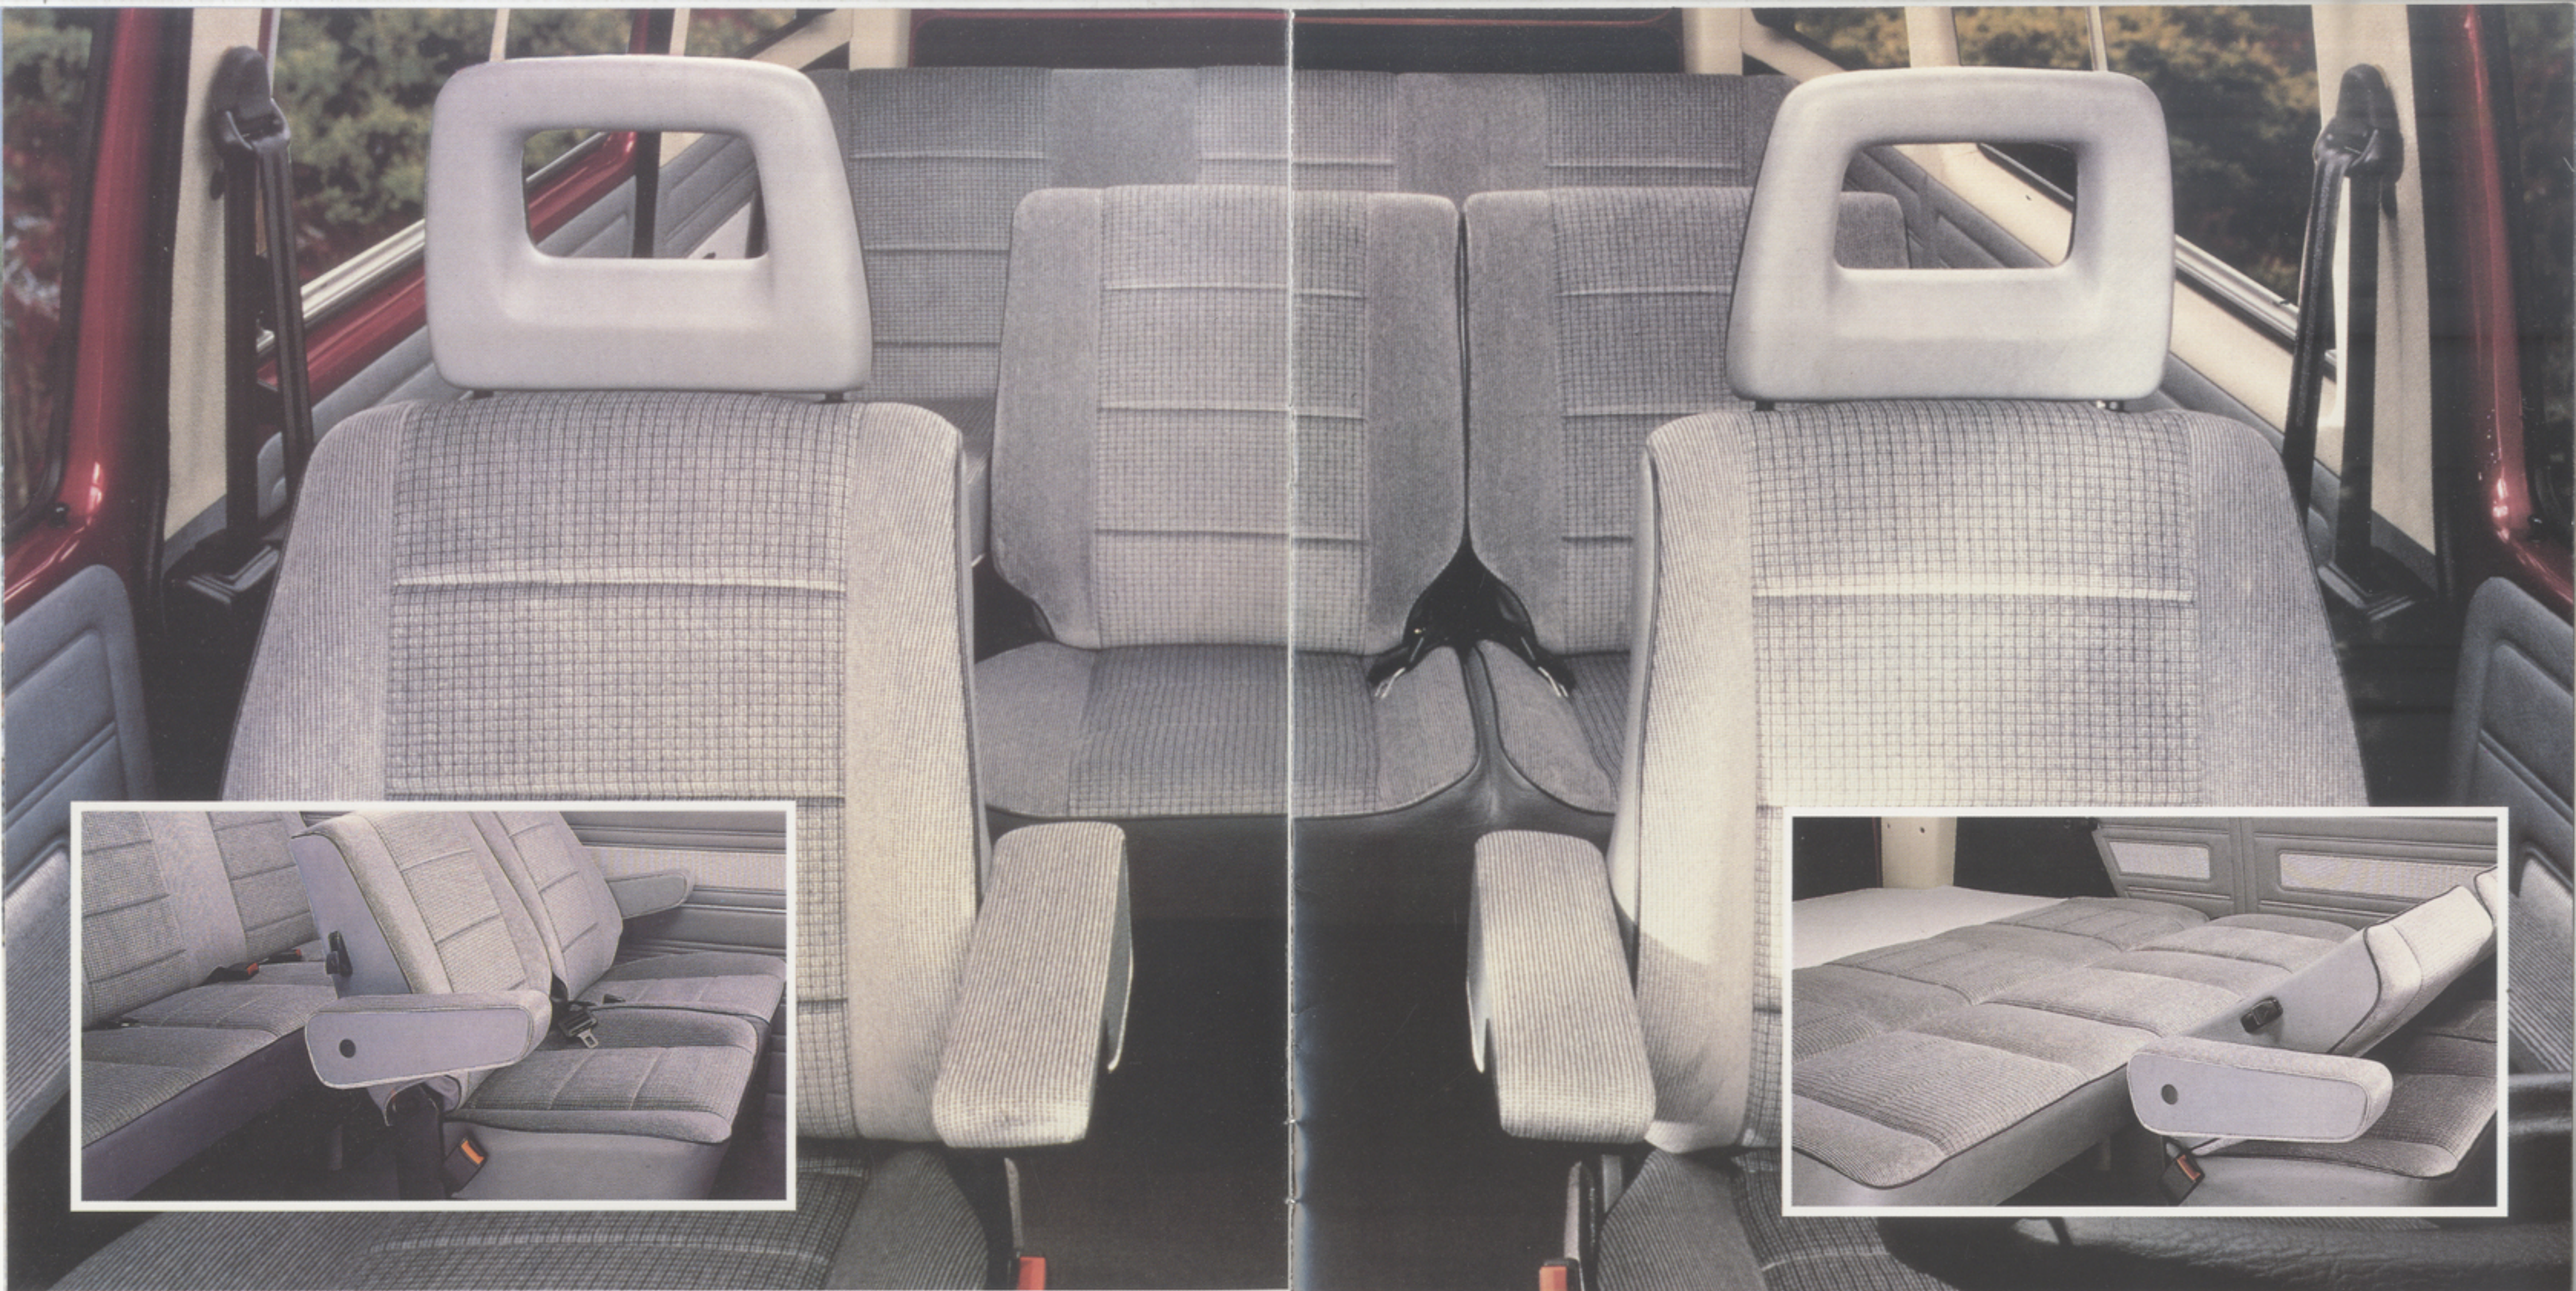

with plenty of comfort and room enough for 7 passengers — and their luggage!

A rear-mounted, rear-wheel drive, 2.1 litre Digifant fuel injection engine, matched with power rack and pinion steering and fully independent front and rear suspension help

produce superb handling and an exceptional, sedan-like ride. Power front disc brakes ensure excellent stopping. Steel-belted radial tires provide an extra measure of road-hugging control. And an optional syncro-drive® 4WD delivers unsurpassed all-

wheel, all-weather performance.

Step up to Vanagon GL and enjoy the best of both worlds: truck-like room and ruggedness with car-like ride, handling and fuel economy.

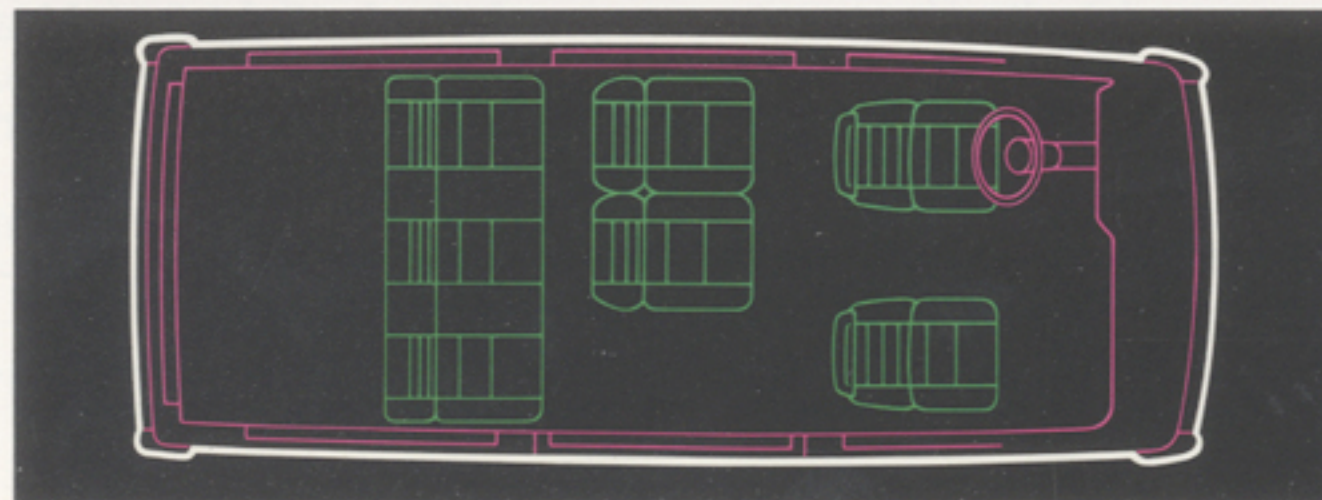

Settle into 7-passenger comfort.

Vanagon GL seats 7 in total comfort, and an optional passenger bench increases seating capacity to 8.

Vanagon GL's well-appointed interior will make even the longest journey a pleasure. Reclining, body-contoured front seats featuring adjustable fold down armrests offer total driving comfort. Rich velour upholstery, front and rear heating, an electric rear

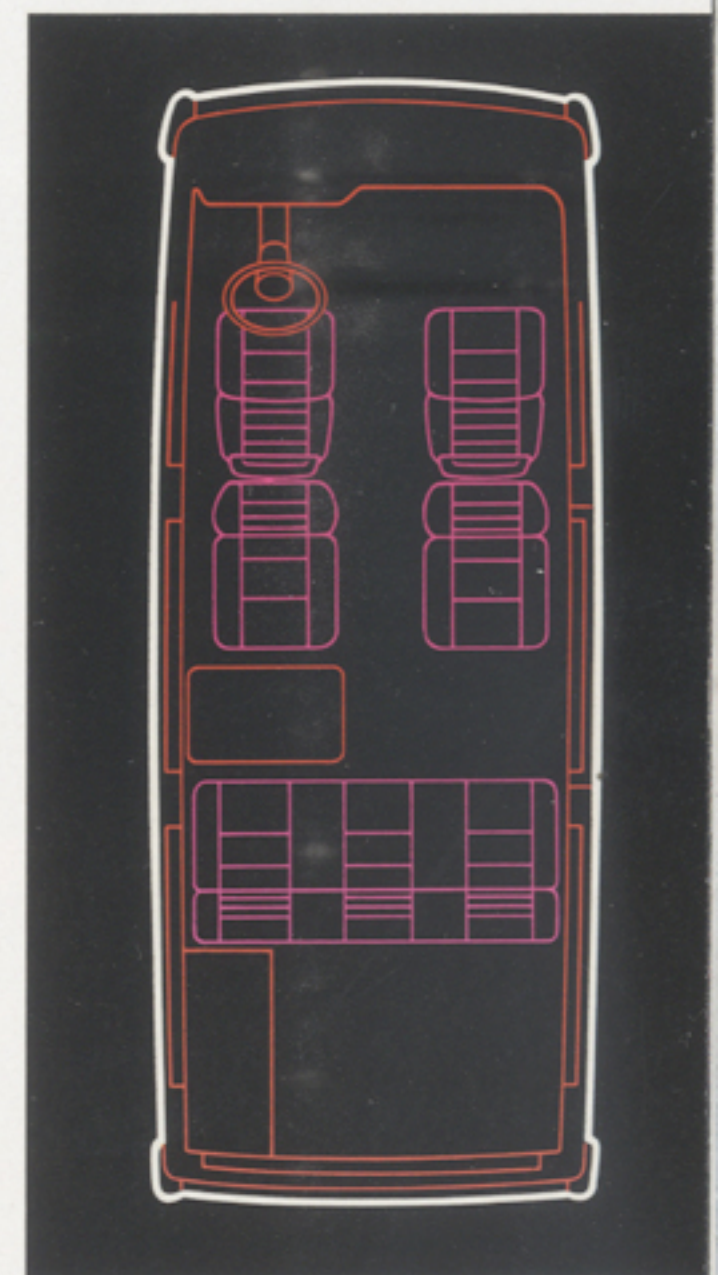

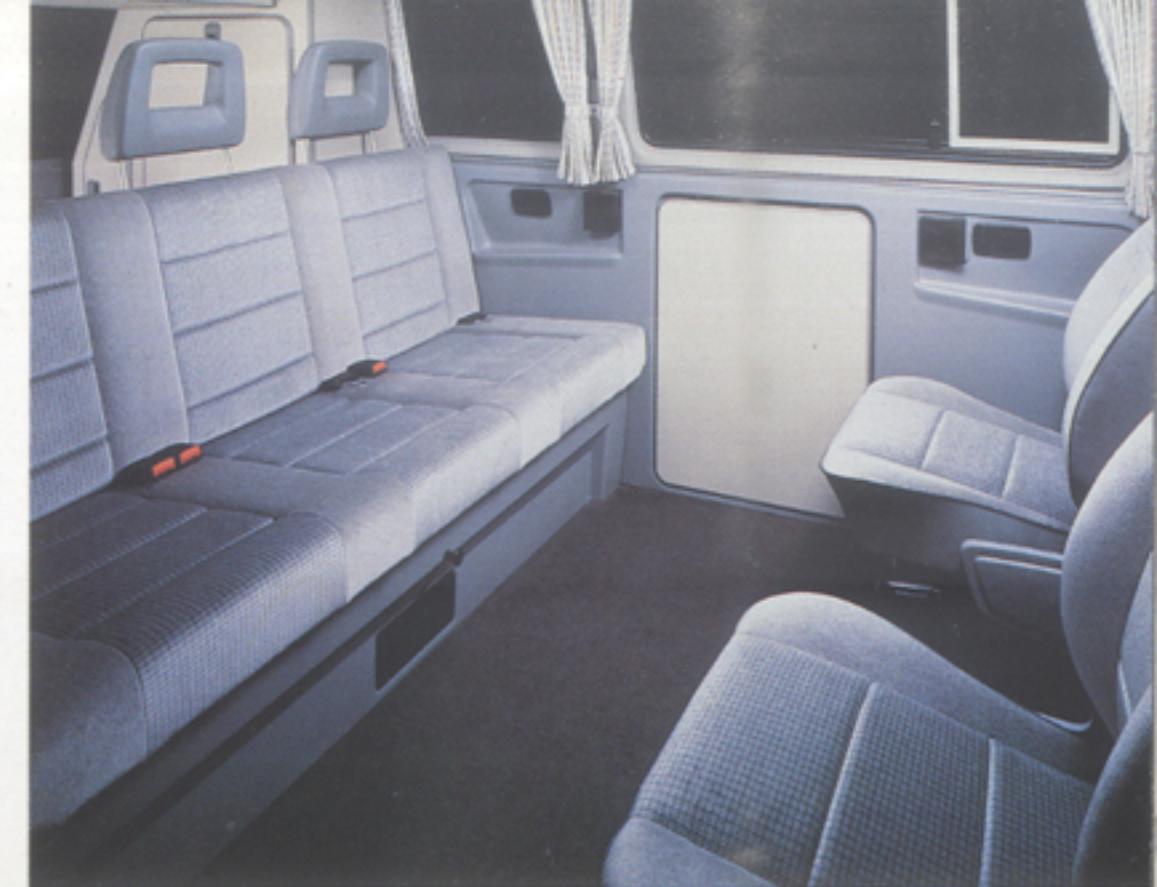

window defroster and front and rear intermittent wipers and courtesy lights are just a few of the many other thoughtful amenities provided.

The space efficient Vanagon GL also features fold-down rear and removable centre seats for even greater

cargo space. Unlike minivans, Vanagon GL doesn't sacrifice cargo space for passenger space: even with 7 passengers aboard, there's still over 1.4 cubic metres of extra cargo space available.

Vanagon GL. A compact van that's big on comfort and room.

Multivan: Get away from it all, in style.

Whether you're out for an afternoon excursion or crossing the continent, Multivan gets you there in style.

Its special appointments — including a pop-up roof — make your getaways extra special. Headroom and leg-room abound, even for the

largest adults. And when you flip open Multivan's easy to operate pop-up roof, presto! — enough standing room to make even your favourite basketball star feel at home!

In addition, the folding rear bench seat converts to a double bed. Mosquito nets

surround both sliding windows for extra sleeping comfort, and curtains are included for privacy. And the roof even has a skylight to let the stars shine through.

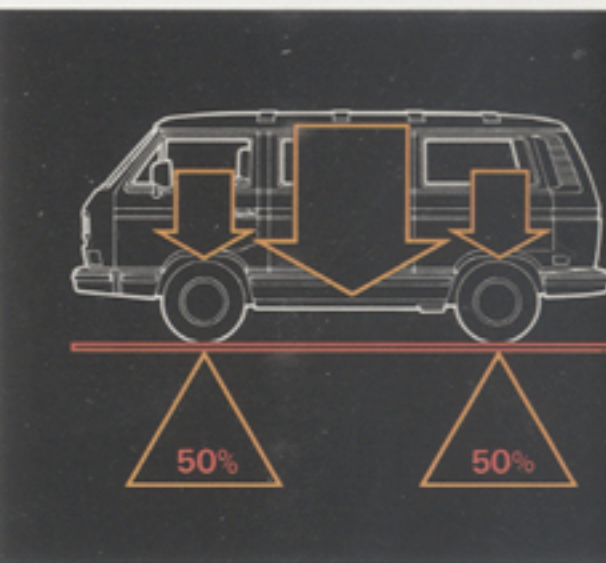

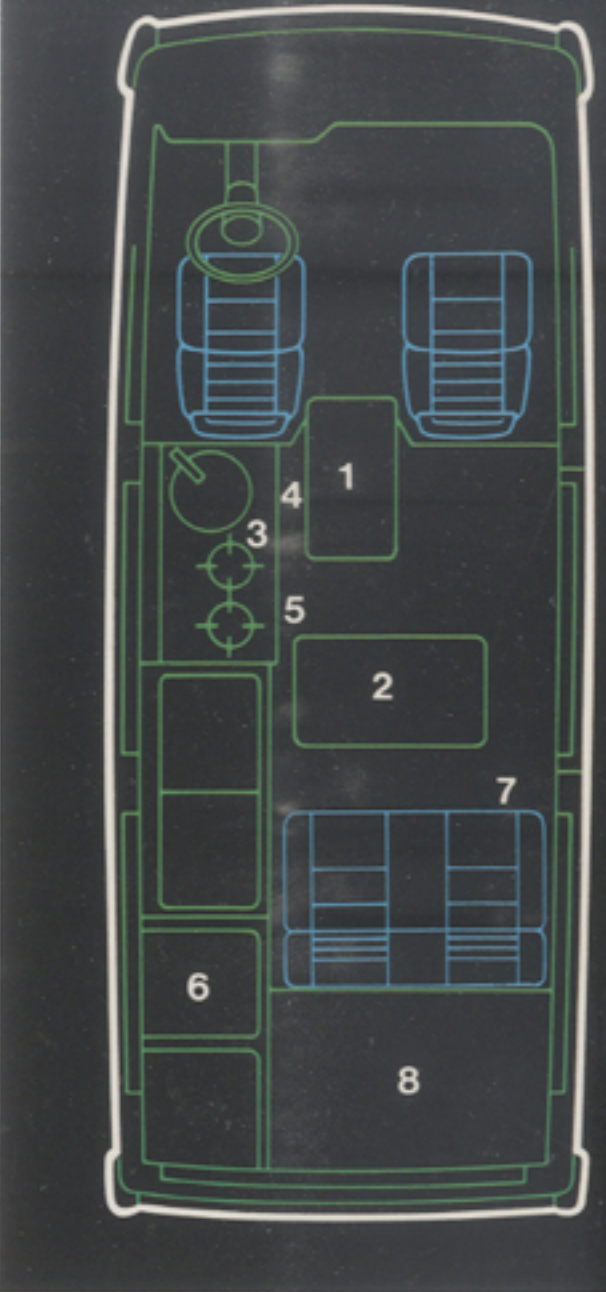

To make driving as enjoyable as camping, Multivan is equipped with convenience

features like: padded steering wheel, power remote and electrically heatable left and right hand mirrors, halogen headlights and intermittent wipers front and rear.

Multi-purpose Multivan. It's ready and waiting for your next getaway!

**Vanagon
GL Camper.
All the comforts
of home — away
from home!**

Vanagon GL Camper has it all. Compact, yet with exceptional interior space and ergonomic design, it possesses every creature comfort imaginable — including the kitchen sink!

And while the Camper is a true home away from home,

carrying 4 adult passengers in comfort, plus their sleeping berths, plus over 1.4 cubic metres of cargo space, plus a stove, plus a refrigerator, it also fits neatly into your garage when you're home!

Camper's superior handling makes it a pleasure to

drive, in town or out. Featuring a turning circle of just 11.5 metres, power rack and pinion steering and fully independent front and rear suspension, the Camper is a remarkably manoeuvrable and fuel-efficient performer. And since the Camper exhibits

Volkswagen's hallmark European fit and finish, it's a pleasure to own, too.

The Vanagon GL Camper's enduring quality and continually refined engineering make it by far the most popular recreational vehicle in all of Europe —

where camping is a way of life.

Vanagon GL Camper. Built with the quality of your lifestyle in mind.

Weight is evenly distributed for maximum traction.

Camper features adjustable gas struts on the rear hatch and a wide sliding side door to make loading and unloading a breeze.

The house that Westfalia built.

Vanagon GL Camper's famous cabin is the product of superb craftsmanship and the cabinet-making tradition of Germany's Westfalia region.

But the space-efficient Westfalia package also relies on a thoroughly space-efficient design below: the

engine is mounted in the rear and coupled with rear wheel drive, thus eliminating normal driveshaft obstruction and increasing available floor space. Partly as a result, Camper boasts a full 1.47 metre interior vertical height from floor to ceiling, the highest in its

class. And with the roof up, much more!

The cabin is a model of simplicity, quality and intelligent design. Rich velour, reclining body-contoured swivel seats are forward and backward adjustable. Fold-away tables, rear bench and

rear door storage provide space-saving convenience. Carpeting is easily removable for convenient cleaning. And every cabinet and locker door is fully removable, laminated on both sides, counter sunk and rubber mounted for extra durability and a simply

perfect fit.

Vanagon GL Camper: a place for everything, and everything in its place.
